Career Objective

Computer Science graduate with hands-on experience in building responsive and user-friendly web interfaces using React.js and modern frontend technologies. Passionate about clean UI, performance optimization, and solving real-world problems through intuitive design. Actively improving DSA skills and seeking opportunities to grow as a frontend developer in a dynamic and collaborative environment.

Technical Skills

Languages: JavaScript (ES6+), C++
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Database: MongoDB
Tools: Git, GitHub, Postman, VS Code

Projects

- **React Quiz App**
  A dynamic quiz project built with React.js, featuring multiple-choice questions, real-time scoring, and a fully responsive user interface. Utilized React hooks for state management and implemented features like question shuffling, progress tracking, and instant result display to enhance user engagement.
  GitHub Repo
- **Personal Portfolio Website**
  A modern and fully responsive personal portfolio website created using React.js. It highlights your profile, projects, technical skills, and contact details. Features include reusable components, animated transitions, dark/light mode toggle, and integration with external platforms like GitHub and LinkedIn. Hosted using GitHub Pages with custom domain.
